

## TPI Research Funding Partners

"We are proud to support TPI as an RFP. Understanding how the most carbon intensive industries prepare for the energy transition is a key part of managing climate risks and opportunities. The **research and data provided by TPI can enhance our investment analysis and our engagement with companies** to differentiate between transition leaders and laggards" *Amanda Young, Chief Sustainability Officer*

"It is our ambition to achieve attractive and sustainable investment returns for our customers, in a responsible way. Being one of the world's largest pension investors, empowers us to set more requirements and, whenever necessary, get companies to comply with sustainability criteria. The work the TPI does helps us with this" *APG Asset Management*

"BNP Paribas AM has been an early and active supporter of TPI and are pleased to see that it has become a key tool that **allows investors and asset owners to better understand and benchmark companies** on their transition to a low carbon economy" *Sandro Pierri, CEO*

"TPI **allows asset managers to better understand which companies are embracing the business advantages of sustainability**. Just as important, it allows asset owners to have a more elevated conversation with their managers, further encouraging low carbon stewardship" *Corporate Governance Team, Legal & General Investment Management*

"We are committed to supporting the transition to a low carbon economy and believe that transparent reporting is a vital part of the process. TPI provides us with just that; a **robust tool with which we can assess companies' preparedness** to meet the objectives of the Paris Agreement" *Marshall Wace*

"We are delighted to continue as an RFP of TPI. As an active investor, we welcome the growing focus on forward-looking measures of climate transition risk and the role of investor judgement and stewardship. **TPI continues to play an important role in providing climate transition analysis** and data freely accessible to market participants" *Neuberger Berman*

"Given our focus on investing for the long-term underpinned by active investment research and analysis, we are delighted to support TPI's research activities, and we look forward to working with them further" *PGIM*

"We believe that every investment decision must be research driven. TPI enables us to do this for our climate analytics. Through TPI's sector transition models, we incorporate climate science into our assessment of leaders and laggards in the net zero transition. For this reason, we are delighted to be a funding partner of TPI since its inception. **TPI should be part of every investor's toolbox for navigating the climate transition**" *Carola van Lamoen, Head of Sustainable Investing*
